

Product Update Notification

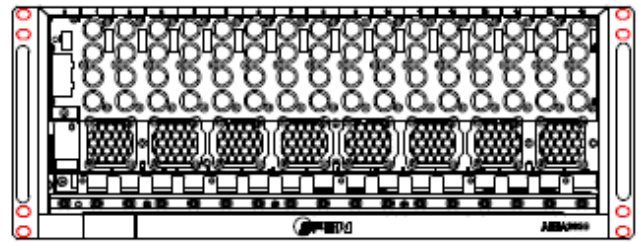

Product Model No	A-ACHA-4U		Pun Ref	PUN20182304_001
Applies To	New orders and RMA replacements			
Hardware Revision	Impact	None	Versions	Current: A05173_1.1 Proposed: A05279_1
Firmware Revision	Impact	None	Versions	None
Distribution to	Global			
Approved by	Rex Yin		Date	23 April 2018
Changes	<p>The AIMA3000 chassis currently ships with two option-codes for chassis mounting handles – the A-ACHA-4U and the A-ACHA-4U-LGAN.</p> <p>The LGAN option handle is a recent edition to the platform that facilitates mounting to a wider variety of network racking systems and maintains the mounting holes of the original chassis handles. Because of this compatibility, the original order-code is being discontinued.</p> <p>All order-codes that are received as A-ACHA-4U will be fulfilled by delivery of the new mounting handles that are currently available through the LGAN order-code.</p> <p>There are no firmware changes involved with this Product Update Notice.</p>			

IMPROVEMENTS

- Provide 4 more mounting holes on the handles of the AIMA chassis for rack installation.

A-ACHA-4U (Original structure)

A-ACHA-4U-LGAN (New structure)

A-ACHA-4U (Example Product - Original)

A-ACHA-4U-LGAN (Example Product - New)

NOTES ABOUT THIS UPDATE

- There are no performance or functionality limitations incurred by this hardware release.
